

# Sharepoint 2010 MySite

## Sharepoint as a people platform

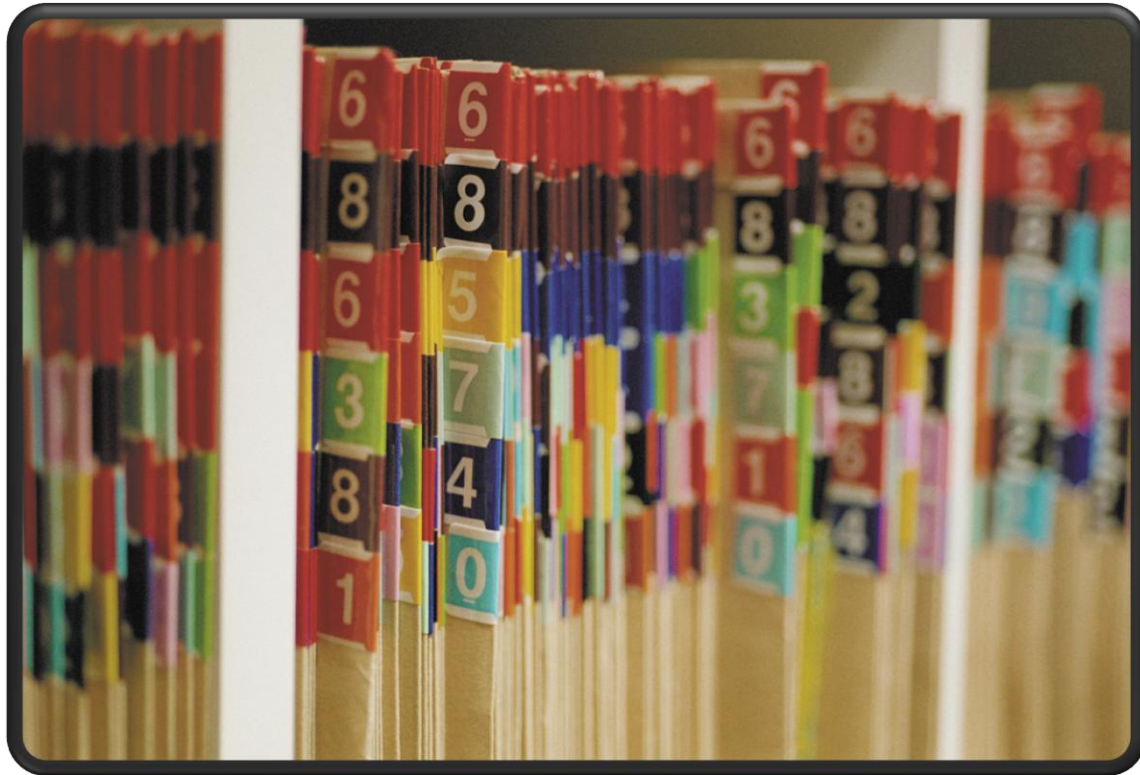

Find and connect with people and knowledge

Arild Aarnes  
ErgoGroup  
arild.aarnes@ergogroup.no

# Knowledge sharing

Is this how you store your employees knowledge?

# Knowledge sharing

Difficult to find who knows what at your company?

# So why Sharepoint MySite?

- How do employees find expertise when they have a question?
- How do employees connect with people outside their department?
- How do employees share their knowledge easily?
- How do employees connect and share knowledge with people with similar skills in different locations?

#### Bruk Windows Live Writer for blogging

For alle nye bloggere på vårt nye Intranett så anbefaler jeg å bruke [Windows Live Writer](#) som verktøy for blogging. Det er et offline blog verktøy som kan brukes mot mange blogg typer som f.eks WordPress, Windows Live Spaces og selvsagt Sharepoint.

Verktøyet gir deg

- Gode formatterings muligheter
- Lag artikkelne offline
- Enkelt å editere poster
- Blogg samme artikkel til flere blogger
- Enkelt å legge inn bilder, tabeller osv
- Kan lage automatisk lenke på utvalgte ord eller setninger
- Sett publiseringsdato frem i tid

# Connecting people

Sharepoint helps you connect to people in several different ways

- Add people as your colleagues on your MySite
- Use Office Communicator to get presence information and connect to people directly
- Use Social Connector in Outlook 2010 to bring the MySite profile information of user to the Outlook client

Hi There,

Outlook 2010 has a thing called Social Connector and this will bring peoples MySite profile information into the Outlook client. You will se there picture and can track there activity stream from Sharepoint.

The connector for Sharepoint mysite is included with Outlook 2010, there are connectors for other social software sites available for download, Facebook, LinkedIn, MySpace

Med vennlig hilsen,

Arild Aarnes

# Summary

Sharepoint MySite is a great tool to enable people to easily find and share knowledge.

It's great for connecting people across boundaries like departments and locations.

**Knowledgeable employees = Happy employees**
